#### I. MINUTES OF 10/19/05 SSP MEETING

- **APPROVED.**

#### DEFERRED ITEM

#### II: KECK SCHOOL OF MEDICINE: HEALTH PROMOTION AND DISEASE PREVENTION STUDIES

Req. by Elahe Nezami

Add a new minor:

Eff. Fall 2006

##### **Cinema-Television for the Health Professions Minor** [24 unit minor]

- **10/19/05 SSP MEETING: DEFERRED to panel.** Many questions were raised by this proposal. The department's original request was unclear about course requirements, so the curriculum office asked them to clarify it. They provided a second version of the request. The Cinema-School dean had signed off on the first version and was asked to weigh in on the second version; his response has not yet been received. The purpose and constituency of the minor are not clear. If the goal is to enable students in the health professions to be able to "partner with the entertainment industry" to disseminate health information, could this be achieved by taking only CNTV 190 and 191? (The minor currently does not *require* any additional CNTV courses.) And is CNTV 190, in particular, really essential? The panel suggests that it would be better to develop a course that deals specifically with the production of health-related cinema or TV. Additionally, there should be consideration of which CNTV courses would be most useful for someone wishing to be involved in making health videos. In what way would this minor be more useful and germane than the current cinema minor?
- **DEFERRED to panel:** No response from department.

VII. LAS: EAST ASIAN LANGUAGES AND CULTURES Req. by Peter Starr

Add a new minor: Eff. Fall 2006

**The Cultures and Politics of the Pacific Rim** [20 unit program]

- **APPROVED.** The minor was developed in consultation with the Business School. It is expected that the Business and Communication schools will be encouraging students towards this minor. The panel recommends that it would be best if a professional advisor in LAS could specialize in advising about this and other minors, with faculty advisors in each area. The minor is designed so that a student can either focus on one particular area, or choose courses from a broad variety of special areas. A discussion ensued about the proliferation of minors; one of the suggestions was to ask departments offering minors with few or no students enrolled in it if they still wanted to offer them. This might encourage a discussion within the department about whether some revision is needed.
